

Priority Meeting Notes

General Notes

- Customer App cancelled
- Conditional on still providing a secure API for accessing database to be used in a future application
- IT renamed to Administrators
- Administrators given full access to the system
- Managers only given access to their store
- All reports are read-only
- No fingerprints
- Employee emails not required
- Use Employee ID instead of username
- Consider tying together Statistics and Reports
- During downtime POS and tills go down, so downtime support is of limited use
- Downtime is rare due to expensive internet
